Theft of Cryptocurrency by a Belgian Resident

**Message:**

Hello,

I am a part of an online community. We have a treasury where the founder of our community, a Belgian resident, stole 750 Solana (roughly equivalent to 70k USD at time of theft on January 24th, 2024). He claims that a hacker stole it through his computer.

You can obtain his IP address from Squads, the platform where the funds were taken: info@sqds.io

The founder's account is recorded using a Belgian IP address:

GWq1m3qMjYZDD9FdY9GUmST8CkXdysWgpqZ5obDx5B3o

He received 750 sol from the sagaDAO wallet and sent 1129 sol here:
